

NDRRMC UPDATE

**Severe Weather Bulletin No. 16
 for Typhoon "HANNA" (LEKIMA)**

Releasing Officer:

UNDERSECRETARY RICARDO B JALAD
 Executive Director, NDRRMC
 and Administrator, OCD

DATE : 09 August 2019, 05:00 AM

Source: DOST-PAGASA issued on 9 August 2019, 5:00 AM

TYPHOON "HANNA" HAS SLIGHTLY WEAKENED AND IS NOW OUTSIDE THE PHILIPPINE AREA OF RESPONSIBILITY (PAR).

- **At 12:30 AM, 09 August 2019, "HANNA" exited the PAR.**
- **On 09 August 2019**, moderate to heavy monsoon rains will be experienced over Ilocos Region, Cordillera Administrative Region, **Batanes, Babuyan Group of Islands**, Zambales, Bataan, Occidental Mindoro and northern portions of Palawan (including Calamian Islands). Light to moderate with intermittent heavy monsoon rains will prevail over Metro Manila, Western Visayas, and the rest of CALABARZON, Central Luzon, and MIMAROPA.
- **Tomorrow, 10 August 2019, light to moderate with intermittent heavy monsoon rains may affect** Ilocos Region, Cordillera Administrative Region, Zambales and Bataan.
- Residents in the aforementioned areas, especially those living in areas identified to be highly or very highly susceptible to floods and rain-induced landslides, are advised to take precautionary measures, coordinate with local disaster risk reduction and management offices, and continue monitoring for updates, especially the Thunderstorm Advisories and Heavy Rainfall Warnings to be issued by PAGASA Regional Services Divisions.
- Gusty conditions will continue over most of Luzon and Visayas due to the enhanced Southwest Monsoon.
- Sea travel is risky over the seaboard of Luzon and Visayas and the northern and eastern seaboard of Mindanao due to potentially rough seas.
- At 4:00 AM, 08 August 2019, Typhoon "KROSA" was estimated based on all available data at **1,990 km** East of Extreme Northern Luzon (22.0°N, 141.1°E) with maximum sustained winds of **155 km/h** near the center and gustiness of up to **190 km/h**. It is moving East slowly and is not expected to enter the PAR.

| | |
|--------------------------------|--|
| Location of eye/center: | At 4:00 AM, 09 August 2019 , the eye of Typhoon "HANNA" was located based on all available data at 645 km North Northeast of Basco, Batanes (OUTSIDE PAR) (25.9 °N, 124.1 °E) |
| Strength: | Maximum sustained winds of 175 kph near the center and gustiness of up to 215 kph |

| | |
|---|--|
| Movement: | Moving Northwest at 20 km/h. |
| Forecast Positions: | <ul style="list-style-type: none"> • 24 Hour (Tomorrow morning): 840 km North of Basco, Batanes (OUTSIDE PAR) (28.0°N, 121.7°E) • 48 Hour (Sunday morning): 1,130 km North of Basco, Batanes (OUTSIDE PAR) (30.6°N, 121.4°E) |
| <p>With this development and unless re-entry occurs, this is the final warning for this weather disturbance. The next update on this disturbance and the Southwest Monsoon will be incorporated in the Weather Advisory to be issued at 11 AM today and in the 4 PM Public Weather Forecast today.</p> | |

ACTIONS TAKEN:

NDRRM Operations Center disseminated Severe Weather Advisory No. **16** for **Typhoon “HANNA”** to all OCD Regional Offices through SMS and facsimile and uploaded in the NDRRMC website for further dissemination to their respective local DRRMCs from the provincial down to the municipal levels.
