

NDRRMC ADVISORY

TO : CHAIRPERSON, RDRRMCs/OCDROs I, II, III, CALABARZON, MIMAROPA, V, VI, VII, VIII, IX, X, XI, XII. CARAGA, NCR, CAR, and ARMM

FROM : Executive Director, NDRRMC and Administrator, OCD

SUBJECT : Severe Weather Bulletin No. 04 for Tropical Storm “DINDO” (I.N. HAGUPIT)

DATE : 02 August 2020, 11:00 AM

Source: DOST-PAGASA

“DINDO” SLIGHTLY INTENSIFIES AS IT MOVES TOWARDS SOUTHERN RYUKYU ISLANDS.

Track and intensity outlook:

- On the forecast track, Tropical Storm DINDO is forecast to move generally northwestward and will move near or over the southern islands of the Ryukyu archipelago **between tonight and tomorrow early morning. It is likely to exit the Philippine Area of Responsibility (PAR) tomorrow morning.** DINDO will remain far from the Philippine landmass throughout the forecast period.
- Additional intensification remains **likely before it makes landfall over eastern China.** DINDO may reach severe tropical storm category by Monday morning.

Hazards affecting land:

- This tropical cyclone has no direct impact on the country at the moment. No tropical cyclone wind signal is in effect over the country.
- **Today, occasional rains (light to moderate with at times heavy) due to the Southwest Monsoon will be experienced over Luzon.**
- Flooding and rain-induced landslide may occur during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards. The public and Local Disaster Risk Reduction and Management Offices concerned are advised to monitor the Rainfall/Thunderstorm Advisories and Heavy Rainfall Warnings from PAGASA Regional Services Divisions and take appropriate measures.

Hazards affecting coastal waters:

- A Gale Warning is in effect over the seaboard of Northern Luzon and the western seaboard of Central and Southern Luzon. Sea travel is risky over these areas due to rough to very rough seas (2.5 to 4.5 m).
- Those with small seacrafts are advised to take precautionary measures while venturing out over the other seaboard of the country due to moderate to rough seas (1.2 to 2.5 m).

Location of eye/center:	At 10:00 AM today , the center of Tropical Storm "DINDO" was estimated based on all available data at 385 km Northeast of Basco, Batanes (22.6°N, 124.9°E) .
Strength:	Maximum sustained winds of up to 75 km/h near the center and gustiness of up to 90 km/h.
Movement:	Moving Northwestward at 20 km/h.
Forecast Positions:	<ul style="list-style-type: none"> • 24 Hour (Tomorrow morning): 545 km North Northeast of Basco, Batanes (OUTSIDE PAR) (25.2°N, 123.2°E) • 48 Hour (Tuesday morning): 1,005 km North of Basco, Batanes (OUTSIDE PAR) (29.4°N, 120.5°E)
NO TROPICAL CYCLONE WIND SIGNAL	
The public and the disaster risk reduction and management council concerned are advised to take appropriate actions and watch for the next update to be incorporated in the 4:00 PM Public Weather Forecast and in the next Severe Weather Bulletin to be issued at 11:00 PM today .	

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Moreover, you are hereby directed to reiterate the guidelines on personal protection and hygiene such as respiratory etiquette and hand hygiene, social distancing, environmental, and food safety measures.

Let's untiringly aim for zero casualty.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

(SGD.)

UNDERSECRETARY RICARDO B JALAD
Executive Director, NDRRMC and
Administrator, OCD
