

## **NDRRMC ADVISORY**

**TO** : ALL CHAIRMEN, RDRRMCs, PDRRMCs, OCDRCs I, II, III, IV-A, IV-B, V, VI, VII, VIII, IX, X, XI, XII, CAR, CARAGA, ARMM and NCR

**FROM** : Executive Director, NDRRMC and Administrator, OCD

**SUBJECT** : **Weather Advisory No. 1 for Low Pressure Areas (LPAs) and Southwest Monsoon**

**DATE** : 24 July 2012, 11:00 AM

Source: PAGASA-DOST

### **I. OVERVIEW**

- At 11:00 AM today, the Low Pressure Area (LPA) East of Mindanao has remained almost stationary for the past six (6) hours and was estimated based on satellite and surface data at 910 kms East of Mindanao (7.0° N, 135.5°E).
- Meanwhile, a new Low Pressure Area (LPA) was spotted and based on satellite and surface data at 300 kms East of Tuguegarao (17.5° N, 125.0°E).
- These weather disturbances and the southwest monsoon will bring scattered rainshowers and thunderstorms over Northern and Central Luzon and Mindanao becoming widespread rains over Northern Luzon which may trigger flashfloods and landslides.

You are hereby directed to monitor the situation and undertake precautionary measures in your area of responsibility (AOR). Likewise, the public and the Local Disaster Risk Reduction and Management Councils (LDRRMCs) are advised to take appropriate actions.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let us untiringly aim for zero casualties.

Submit report on actions taken thereof.

**BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:**

**USEC. BENITO T. RAMOS**  
Executive Director, NDRRMC and  
Administrator, OCD
