

NDRRMC UPDATE

Weather Advisory No. 1 **Active Low Pressure Area (ALPA) and** **Intertropical Convergence Zone (ITCZ)**

Releasing Officer:

USEC BENITO T. RAMOS
Executive Director, NDRRMC and
Administrator, OCD

DATE : 31 May 2012, 11:00 AM

Source: PAGASA-DOST

I. OVERVIEW

- At 8:00 AM today, the Active Low Pressure Area (ALPA) was estimated based on satellite and surface data at 330 km East of Borongan, Eastern Samar (11.5°N, 128.9°E) embedded along the Intertropical Convergence Zone (ITCZ).
- It is expected to develop into a tropical cyclone within the next 24 to 48 hours
- These weather systems will bring cloudy skies with scattered to widespread rains in Visayas and Northeastern Mindanao
- Residents living in low lying areas and along mountain slopes are advised to be on alert for possible occurrence of flashfloods and landslides.

II. ACTION/S TAKEN

- **NDRRMC Weather Advisory No. 1 for Active Low Pressure Area (ALPA) and Intertropical Convergence Zone (ITCZ)** was disseminated to all OCD Regions through facsimile and website for further dissemination to their respective Local Disaster Risk Reduction and Management Councils (LDRRMCs) from the provincial down to the municipal levels
