

NDRRMC UPDATE

Weather Advisory No. 4 for Southwest Monsoon and Shallow Low Pressure Area (SLPA)

Releasing Officer:

USEC BENITO T. RAMOS
Executive Director, NDRRMC and
Administrator, OCD

DATE : 06 August 2012, 11:00 AM

Source: PAGASA-DOST

I. OVERVIEW

- **Moderate to heavy rains is expected to occur over the western section of Luzon (Pangasinan, Zambales down south to Batangas and Mindoro including the National Capital Region) and Panay Island due to the southwest monsoon, which may trigger flashfloods and landslides. Light to moderate rains will continue to be experienced over the rest of Luzon. Meanwhile, a shallow low pressure area was estimated at about 920 km East of Northern Luzon (17.5°N 130.5°E).**

II. ACTION/S TAKEN

NDRRMC Weather Advisory No.4 for Southwest Monsoon and Shallow Low Pressure Area (SLPA) was disseminated to all OCD Regions through facsimile and website for further dissemination to their respective Local Disaster Risk Reduction and Management Councils (LDRRMCs) from the provincial down to the municipal levels.
