<b>Movement:</b>	<b>Moving North Northeast at 13 kph</b>
<b>Forecast Positions/Outlook:</b>	<b>Monday morning:</b> <b>420 km East Northeast of Basco, Batanes</b> <b>Tuesday morning:</b> <b>700 km Northeast of Basco, Batanes</b> <b>Wednesday morning:</b> <b>1,090 km North Northeast of Basco, Batanes.</b>

PUBLIC STORM WARNING SIGNAL	
Signal No. 1 ( 30-60 kph winds )	Batanes Group of Islands Calayan Islands

- Residents in low lying and mountainous areas under Public Storm Warning Signal # 1 are alerted against possible flashfloods and landslides.
- Estimated rainfall amount is from **20 - 30** mm per hour (heavy) within the 400 km diameter of the Typhoon.
- **TY “AMBO” is expected to enhance the Southwest Monsoon that will bring rains over the whole country especially the western section.**
- Fishing boats and other small seacrafts are advised not to venture out into the seaboards of Southern Luzon and Visayas and the Eastern seaboard of Northern and Central Luzon due to the combined effect of **TY “AMBO”** and the Southwest Monsoon.

## II. ACTION/S TAKEN

### NDRRMC–OPCEN

- Disseminated **Severe Weather Bulletin No. 11 on Typhoon “AMBO”** to all OCD Regional Centers through SMS and facsimile and uploaded same at the NDRRMC website for further dissemination to their respective local disaster risk reduction and management councils (LDRRMCs) from the provincial down to the municipal levels
- Directed RDRRMCs concerned through the OCD Regional Centers to undertake precautionary measures in their area of responsibility (AOR) and subsequently advised local DRRMCs to initiate pre-emptive evacuation of families in low-lying and mountainous areas if situation warrants.
