NDRRMC UPDATE

Severe Weather Bulletin No. 16
 Typhoon "AMBO" (MAWAR)

Releasing Officer

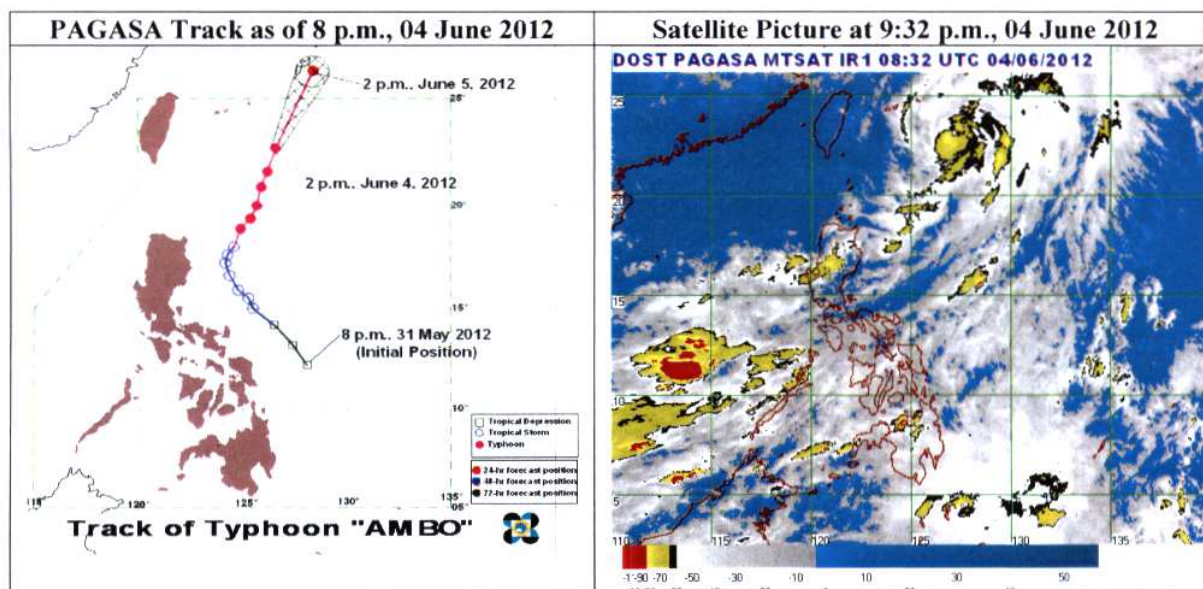

for *Adh*
USEC BENITO T. RAMOS
 Executive Director, NDRRMC and
 Administrator, OCD

DATE : 04 June 2012, 11:00 PM

Source: PAGASA-DOST

I. SITUATION OVERVIEW:

TYPHOON "AMBO" CONTINUES TO MOVE AWAY FROM THE COUNTRY IN A NORTHEAST DIRECTION.

Location of Eye/Center: (as of 10:00 P.M.)	630 km Northeast of Basco, Batanes
Coordinates:	23.6°N, 128.0°E
Strength:	Maximum winds of 140 kph near the center and gustiness of up to 170 kph
Movement:	Moving North Northeast at 19 kph

Forecast Positions/Outlook:	<i>Tuesday evening:</i> 1,010 km Northeast of Basco, Batanes
No Public Storm Warning Signals Raised	

- TY "AMBO" " is expected to enhance the Southwest Monsoon that will bring rains over Central and Southern Luzon and Visayas especially over the western section which may trigger flashfloods and landslides.
- Estimated rainfall amount is from 20 - 30 mm per hour (heavy) within the 400 km diameter of the Typhoon.
- Fishing boats and other small seacrafts are advised not to venture out into the seaboards Luzon and the western seaboard of Visayas due to the combined effects of TY "AMBO" and the Southwest Monsoon.
- Meanwhile, a Low Pressure Area (LPA) was estimated based on satellite and surface data at **450 km East of Mindanao (7.0°N, 130.0°E).**

II. ACTION/S TAKEN

NDRRMC–OPCEN

- Disseminated **Severe Weather Bulletin No. 16 on Typhoon “AMBO”** to all OCD Regional Centers through SMS and facsimile and uploaded same at the NDRRMC website for further dissemination to their respective local disaster risk reduction and management councils (LDRRMCs) from the provincial down to the municipal levels
- Directed RDRRMCs concerned through the OCD Regional Centers to undertake precautionary measures in their area of responsibility (AOR) and subsequently advised local DRRMCs to initiate pre-emptive evacuation of families in low-lying and mountainous areas if situation warrants.
