

NDRRMC UPDATE

Postponement of the Republic of Korea's 3rd Science and Technology Satellite-2 (STSAT-2) Launching aboard Korea Space Vehicle- I (KSLV-I)

Releasing Officer:

USEC BENITO T. RAMOS
Executive Director, NDRRMC and
Administrator, OCD

DATE : 29 November 2012, 4:30 PM

As of 3:44PM 29 November 2012, the rocket launch, expected to take place between 4:00 PM to 6:55 PM 29 November 2012, was postponed indefinitely due to a problem at the thruster controller which controls the direction of flight.

In view of this, we are now **LIFTING THE "NO SAIL, NO FLY AND NO FISHING"** policy and **Blue Alert status** will be effective today, 4:30 PM 29 November 2012.
