				or downed <ul style="list-style-type: none"> • Some damage to poorly constructed signs/billboards • In general, the winds may bring light to moderate damage to the exposed communities. Most banana plants, a few mango trees, ipil-ipil and similar types of trees are downed or broken • Some coconut trees may be tilted with few others broken • Rice and corn may be adversely affected • Considerable damage to shrubbery and trees with some heavy-foliaged trees blown down
	Wave Height (Open Sea): 4.1 - 14.0 meters			<ul style="list-style-type: none"> • Storm surge possible at coastal areas
1 (30-60KPH Expected in 36 hrs.)	Babuyan Group of Islands			<ul style="list-style-type: none"> • Very light or no damage to low risk structures • Light damage to medium to high risk structures • Slight damage to some houses of very light materials or makeshift structures in exposed communities. Some banana plants are tilted, a few downed and leaves are generally damaged • Twigs of small trees may be broken • Rice crops, however, may suffer significant damage when it is in its flowering stage.
	Wave Height (Open Sea): 1.25-4.0 meters			

- Estimated rainfall amount is from moderate to heavy within the 650 km diameter of the typhoon
- Fisherfolk are advised not to venture out over the seaboards of Northern Luzon and the eastern seaboard of Central and Southern Luzon.
- [“Butchoy” will enhance the Southwest monsoon which will bring moderate to occasionally heavy rains over the provinces of Zambales, Bataan, Cavite, Batangas, Mindoro and Northern Palawan](#)
- The general public and disaster risk reduction and management councils concerned are advised to take appropriate actions and watch for the next weather bulletin to be issued at [5:00AM tomorrow](#).

II. ACTION/S TAKEN

- **NDRRM Operations Center disseminated Severe Weather Bulletin No. 09 re Typhoon “BUTCHOY”** to all OCD Regional Centers through SMS and facsimile and uploaded on the NDRRMC website for further dissemination to their respective local disaster risk reduction and management councils (LDRRMCs) from the provincial down to the municipal levels
- Directed RDRRMCs concerned through the OCD Regional Centers to undertake precautionary measures in their areas of responsibility (AOR) and subsequently advised local DRRMCs to initiate pre-emptive evacuation of families in low-lying and mountainous areas if situation warrants
