

NDRRMC ADVISORY

TO : Chairperson, RDRRMC III
FROM : Executive Director, NDRRMC and Administrator, OCD
SUBJECT : Flood Advisory No. 1 for Pampanga River Basin and Allied Rivers
DATE : 12 August 2018, 7:00 AM

Source: PAGASA-DOST

PRESENT WEATHER:

- As of 7:00 AM, the stretch of main Pampanga river remained below alarm level (orange) status. Slow rise at the lower sections of lower main Pampanga river.
- The Southwest Monsoon (Habagat) will continue to bring occasional rains over the Allied Sub-basin of Pasac-Guagua and the lower Main Pampanga River Basin (including Candaba Swamp area) during the forecast period.
- The Local Disaster Risk Reduction and Management Councils (LDRRMOs) within these sub-basin areas of concern are advised to take precautionary measures in their target communities to mitigate the adverse impacts of flooding due to the accumulation / ponding of rainwater combined with the effects of high tide and including areas with poor drainage systems.

AVERAGE BASIN RAINFALL (MM) AS OF 7:00 AM TODAY:

Past 24hrs observed rainfall = **64.1 MM**

Forecast 24-hr basin rainfall = **15 to 30 MM**

WATERWAYS AND AREAS OF CONCERN /IMPACTS		
Sub-basins: River Channels, Tributaries, Swamp	Areas likely to be affected	Impacts
Pasac-Guagua River Sub Basin: Abacan, Porac-Gumain, Pasig-Potrero Rivers	Sasmuan, Guagua, Lubao, Bacolor, Sta. Rita, Minalin, Sto. Tomas, Mexico, San Fernando City, Macabebe, Masantol, and Floridablanca	Flooding due to accumulation / ponding of rainwater particularly at low-lying areas and areas with poor drainage system combined with coastal flooding as a result of high- tide at riverside and coastal areas
Lower Main pampanga River Basin: Candaba Swamp and the stretch of the Lower Pampanga River	Bulacan-Pampanga Delta Areas: Candaba, San Luis, San Simon, Apalit, Calumpit, Hagonoy, Macabebe, and Masantol	Flooding due to accumulation / ponding of rainwater particularly at low-lying areas (including the swamp area) and areas with poor drainage system; coastal flooding as a result of high-tide at riverside and coastal areas

People living near the mountains slopes and in the low-lying areas of the above-mentioned river systems and the Local Disaster Risk Reduction and Management Councils concerned are **advised to take necessary precautionary measures.**

Let's untiringly aim for zero casualties.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

USEC RICARDO B JALAD
Executive Director, NDRRMC and
Administrator, OCD
