

REPUBLIC OF THE PHILIPPINES  
**NATIONAL DISASTER RISK REDUCTION AND MANAGEMENT COUNCIL**

National Disaster Risk Reduction and Management Center, Camp Aguinaldo, Quezon City, Philippines

## **NDRRMC ADVISORY**

**TO :** Chairperson of RDRRMC/OCDRO III  
**FROM :** Executive Director, NDRRMC and Administrator, OCD  
**SUBJECT :** Flood Bulletin No. **05** Pampanga River Basin & Allied Rivers  
**DATE :** **19 July 2018**

---

Source: PAGASA-DOST

**ISSUED AT 05:00 PM, 19 July 2018**

### **AVERAGE BASIN RAINFALL (MM) AS OF 4:00 PM TODAY:**

Past **24-hr** observed rainfall: 13 millimeters

Forecast **24-hr** basin rainfall: 10 to 15 millimeters

### **AREAS OF CONCERN (WATERWAYS AND AREAS LIKELY TO BE AFFECTED)**

- Pasac-Guagua River Sub-Basin: Abacan, Porac-Gumain, Pasig-Potrero Rivers; Affected Municipalities: Sasmuan, Guagua, Lubao, Bacolor, Sta. Rita, Minalin, Sto. Tomas, Mexico, San Fernando City, Macabebe, Masantol and Floridablanca
- Lower Main Pampanga River Basin: Candaba Swamp and the stretch of the Lower Pampanga River; Affected Municipalities: Bulacan-Pampanga Delta Areas: Candaba, San Luis, San Simon, Apalit, Calumpit, Hagonoy, Macabebe and Masantol
- Flooding due to accumulation/ponding of rainwater particularly at low-lying areas and areas with poor drainage system combined with coastal flooding as a result of high-tide at riverside and coastal areas

### **AWARENESS INFORMATION/ADVISORY:**

The **Southwest Monsoon (Habagat) enhanced by Tropical Storm "INDAY"** will continue to bring **occasional rains** over the Allied sub-basin of Pasac-Guagua and the lower Main Pampanga River Basin (including Candaba Swamp area) until this coming weekend (July 21, Saturday).

The Local Disaster Risk Reduction and Management Councils (LDRRMCs) within these sub-basin areas of concern are still advised to take precautionary measures in their target communities to mitigate the adverse impacts of flooding due to the accumulation/ponding of rainwater combined with the effects of high tide including areas with poor drainage systems.

### **PUBLIC WARNING:**

People living near the low-lying areas particularly those adjacent to and along the above-mentioned rivers are alerted against possible landslides and flashfloods and the Disaster Risk Reduction and Management Councils (DRRMCs) concerned are advised to take appropriate actions.

Let's untiringly aim for zero casualties.

Submit report on actions taken.

**BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:**

**USEC. RICARDO B. JALAD**  
Executive Director, NDRRMC and  
Administrator, OCD
