

NDRRMC ADVISORY

TO : Chairperson of RDRRMC/OCDRO I
FROM : Executive Director, NDRRMC and Administrator, OCD
SUBJECT : Flood Bulletin No. 01 for Agno River Basin and Allied Rivers
DATE : 08 September 2018

Source: PAGASA-DOST Issued at 8:00 AM, 08 September 2018

AVERAGE BASIN RAINFALL AS OF 4:00AM TODAY:

Past 24-hrs observed rainfall = 32.5 MM

Forecast 24-hr basin rainfall = Light to Occasional Heavy Rains

WATERWAYS LIKELY TO BE AFFECTED:

- **TRIBUTARIES OF UPPER AND MIDDLE MAIN AGNO RIVER;**
 - Ambayaoan River
 - Viray-Depalo River
 - Banila and Totonogen Rivers
 - Streams

- **LOWER AGNO RIVER AND ITS TRIBUTARIES;**
 - Tarlac, Camiling, Bayaoas Rivers and Streams

- **ALLIED RIVERS**
 - PANTAL-SINOCALAN RIVER AND TRIBUTARIES - Tuboy, Ingalera, Tagamusing Rivers and Streams
 - CAYANGA RIVER AND TRIBUTARIES - Bued-Patalan, Angalacan and Aloragat Rivers and Streams

Generally, water level of main Agno River is still below alert stage. However, monsoon rains is still expected to prevail over the basin for the next few days. Thus, slow to gradual rise of water levels particularly the small tributaries/streams and the allied river systems within the basin is expected.

People living near mountain slopes, low-lying areas, particularly areas with poor drainage systems, coastal or high tide-affected areas, adjacent to or along the above-mentioned waterways and the Local Disaster Risk Reduction Management Councils (LDRRMC's) concerned are still advised to be alert for possible landslides, urban flooding, coastal flooding, flash floods and/or river flooding.

Let's untiringly aim for zero casualties.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

USEC. RICARDO B. JALAD
Executive Director, NDRRMC and
Administrator, OCD
