Flooding due to poor drainage system & accumulation of rainwater in the low-lying urbanized areas			Dagupan city & Urdaneta City

The residents and the Local Disaster Risk Reduction and Management Councils (DRRMC's) concerned are advised to maintain precautionary measures to mitigate adverse impacts of river flooding combined with the effects of tide, flooding due to ponding and at areas with poor drainage systems.

Let's untiringly aim for zero casualties.

Submit report on actions taken.
