| BALONGAY BICOL R. | BELOW ALERT LEVEL AT 0.56 m BUT MAY RISE SLOWLY DUE TO CONVERGENCE OF UPSTREAM WATER AND EFFECT OF TIDE | RIVER FLOODING IS STILL POSSIBLE | CALABANGA |
| SIPOCOT SIPOCOT R. | UNDER ALARM LEVEL AT 7.21m BUT WILL CONTINUE TO RECEDE SLOWLY UNTIL TOMORROW | RIVER FLOODING IS STILL THREATENING | CABUSAO, LIMBANAN, SIPOCOT |

| | | | |
|---------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|-------------------------------------------------|-------------------|
| CALZADA BICOL R. | UNDER ALERT LEVEL AT 2.20 BUT WILL CONTINUE TO RECEDE SLOWLY UNTIL EVENING | RIVER FLOODING IS STILL POSSIBLE | OAS, LIBON |
| LOCAL FLOODING STILL PERSISTS IN LOW LYING, URBAN AREAS, ROADSIDE, AND FARMLANDS | | | |

People living near the mountain slopes and low-lying areas near the above mentioned rivers and streams are advised to be alert for possible flashfloods and landslides, and the local disaster risk reduction and management councils concerned are advised to be alert and take appropriate actions.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let's untiringly aim for zero casualties.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

USEC RICARDO B JALAD
 Executive Director, NDRRMC and
 Administrator, OCD
