DUMMUN	NINOY AQUINO BRIDGE (TUAO-CAGAYAN)	SLOW RISE	FLOODING IS POSSIBLE	TUAO, PITA, STO. NIÑO
--------	--	-----------	----------------------------	-----------------------

People living near the low-lying areas particularly those adjacent to and along above mentioned rivers are alerted against possible landslides and flashfloods and the local disaster risk reduction and management councils concerned are advised to be alert and take appropriate actions.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let's untiringly aim for zero casualties.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

for Merlyn
USEC RICARDO B JALAD
Executive Director, NDRRMC and
Administrator, OCD
