- Slow rise of middle main Cagayan River and its tributaries Magat, Siffu, Malug and Pinacanauan Rivers of Ilagan Tumauni and San Pablo
Flooding is still possible within the next 12 hours in the low lying areas of Naguilian, Gamu, Ilagan, Tumauni, Delfin Albano, Sto Tomas, Cabagan, Sta Maria and San Pablo.
- Slow rise of lower main Cagayan River and its tributaries Pinacanauan River of Tuguegarao, Pared River, Zinundungan River, Dummun River and Chico River
Flooding is possible within the next 12 hours in the low lying areas of Tuguegarao City, Enrile, Solana, Iguig, Amulung, Alcala, Gattaran, Lallo, Lasam, Baggao, Camalanuigan and Aparri.

PUBLIC WARNING:

People living in the low lying areas particularly in the above mentioned areas and the **Local Disaster Risk Reduction and Management Councils concerned** are advised to be on alert and to take appropriate actions.

ACTIONS TAKEN:

NDRRMC-OPCEN

- Disseminated Flood Bulletin No. 01 for Cagayan River Basin to **OCD Regional Center II** through SMS and facsimile and uploaded same at the NDRRMC website for further dissemination to their respective local disaster risk reduction and management councils (LDRRMCs) from the provincial down to the municipal levels
- Directed RDRRMCs concerned through the OCD Regional Center to undertake precautionary measures in their area of responsibility (AOR) and subsequently advised local DRRMCs to initiate pre-emptive evacuation of families in low-lying and mountainous areas if situation warrants
