PUBLIC WARNINGS:

People living near the mountain slopes and in the low lying areas of the above mentioned river systems and the local disaster risk reduction and management councils (LDRRMCs) concerned are still advised to be on alert for possible/further flashfloods and landslides and to take necessary precautionary measures.

In order to better inform/warn communities, you are reminded to disseminate this through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let's untiringly aim for zero casualties.

Submit report on actions taken.
