

NDRRMC UPDATE

GENERAL FLOOD ADVISORY **No. 03 for Pampanga River Basin and Allied Rivers**

Releasing Officer:

USEC. ALEXANDER P. PAMA
Executive Director

DATE : 24 August 2015

Source: PAGASA

PAST 24-HR AVERAGE RAINFALL: GENERALLY LIGHT RAINS

No. 03 for PAMPANGA RIVER BASIN AND ALLIED RIVERS

FORECAST 24-HR RAINFALL	Light to occasionally moderate Southwest Monsoon (Habagat) rains
WATERCOURSES LIKELY TO BE AFFECTED	<ul style="list-style-type: none">• Lower Main Pampanga River• Allied River Basin of Pasac-Guagua: Abacan, Pasig-Potrero, Porac-Gumain Rivers, and other streams and creeks within the said sub-basin.• Ponding of rainwater at relatively low-lying areas.

PUBLIC WARNINGS:

Major river channels within the basin still remain below alert levels. The southwest monsoon (Habagat) rains are still expected to prevail over the western sections of the Pampanga River Basin (PRB) particularly over the Pasac-Guagua Sub-basin. Residents and Local Disaster Risk Reduction and Management Councils adjacent to and/or along the abovementioned waterways are advised to remain alert for possible flash floods and river overflowing at some mid-stream to downstream portions of said waterways.

ACTION/S TAKEN:

NDRRMC Advisory was disseminated to **OCD/RDRRMCs III** through facsimile, SMS and website for further dissemination to their Local Disaster Risk Reduction and Management Councils (LDRRMCs) from the provincial down to the municipal levels.
