

NDRRMC UPDATE

Weather Advisory No. 01 for Tail-End of a Cold Front and Low Pressure Area (LPA)

Releasing Officer:

USEC. RICARDO B. JALAD
Executive Director, NDRRMC and
Administrator, OCD

DATE: 11 December 2017

Source: PAGASA-DOST

I. SITUATION OVERVIEW:

The tail-end of a cold front will bring moderate to occasionally heavy rains over Bicol Region, Eastern Visayas, and the Province of Quezon. Residents along these areas are alerted for possible landslides and flashfloods.

Meanwhile, at 10:00 AM today, a Low Pressure Area (LPA) was estimated based on all available data at 775 km east of Davao City, Davao Del Sur (6.8N, 132.8E). This weather system will bring cloudy skies with light to moderate rains and thunderstorms over the regions of CARAGA and Davao. This disturbance may develop into a tropical depression within the next 36-48 hours.

II. ACTIONS TAKEN:

NDRRM Operations Center disseminated **Weather Advisory No. 1 for Tail-End of a Cold Front and Low Pressure Area (LPA)** to all OCD Regional Offices through SMS and facsimile and uploaded on the NDRRMC website for further dissemination to their respective local DRRMCs from the provincial down to the municipal levels.
