SUBJECT

Severe Weather Bulletin No. 20 re Tropical Storm "URDUJA"

(KAI-TAK)

DATE

15 December 2017, 11:00 PM

Source: PAGASA-DOST

I. SITUATION OVERVIEW:

EASTERN VISAYAS WILL CONTINUE TO EXPERIENCE HEAVY RAINS AS "URDUJA" REMAINS ALMOST STATIONARY.

- Expected to make landfall over Northern Samar Eastern Samar area tomorrow.
- Estimated rainfall amount is from moderate to heavy within the 500 km diameter of the Tropical Storm.
- Possible wave setup on the coastal areas of Northern and Eastern Samar which may result to coastal flooding.
- Scattered to widespread rains will continue over Eastern Visayas and CARAGA
 and is expected to prevail over Bicol Region and the rest of Visayas. Residents of
 these areas must undertake appropriate measures against flooding and landslides
 and coordinate with their respective local government and disaster risk reduction and
 management offices.
- Sea travel remains risky over the eastern seaboards of Bicol Region and of Visayas due to the approaching Tropical Storm.

PUBLIC WARNING

People living near the mountain slopes and in the low lying areas and the Local Disaster Risk Reduction and Management Councils (LDRRMCs) concerned are advised to take necessary precautionary measures.

In order to better inform/warn communities, you are reminded to disseminate this through local/community leaders and through your local media, including community radio stations. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions evacuation rather than rescue.

Let's untiringly aim for zero casualties
