**DATE :** **18 January 2018, 11:00 AM**

Source: PAGASA-DOST

### **I. SITUATION OVERVIEW:**

The Tail-end of a Cold Front is no longer affecting any part of the country. However, the Provinces of Aurora and Quezon, and the Regions of CARAGA and DAVAO will continue to have cloudy skies with light to moderate rains and thunderstorms due to the easterlies.

With this development, this is the final advisory for this weather system.

You are hereby directed to monitor the situation and undertake precautionary measures in your area of responsibility (AOR). Likewise, the public and the DRRMCs are advised to take appropriate actions, as necessary.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let's untiringly aim for zero casualties.

Submit report on actions taken.
