	NINOY AQUINO BRIDGE Tuao, Cagayan	Slow Rise	Flooding is Possible	Tuao, Piat, Sto. Niño

People living near the low-lying areas particularly those adjacent to and along the abovementioned rivers are alerted against possible landslides and flashfloods and the Local Disaster Risk Reduction and Management Councils (LDRRMCs) concerned are advised to take appropriate actions. You are directed to monitor the situation and undertake precautionary measures in your area of responsibility (AOR).

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let's untiringly aim for zero casualty.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

UNDERSECRETARY RICARDO B JALAD

Executive Director, NDRRMC and
Administrator, OCD
