**FOOD SECURITY**

<sup>1</sup> The KADIWA ni Ani at Kita project envisions increasing small farmers' and fishermen's income through direct product selling to end-users and increased institutional market linkages.

<sup>2</sup> FSRF provides unconditional cash grants equal to ₱5,000.00 per beneficiary to support rice farmers to cushion the effects of the sudden drop of palay price.

<sup>3</sup> The SURE AID Program is facilitated by the Agricultural Credit and Policy Council (ACPC). It aims to: (a) finance the emergency and production capital requirements of marginalized, small farmers and fisherfolk (MSFFs); and (b) provide the working capital requirement of micro and small enterprises (MSEs) engaged in agri-fisheries.

  
**UNDERSECRETARY RICARDO B. JALAD**

- c. Provided information on government efforts in response to COVID-19.
- d. Provided analysis and assessment of the situation:

April 27, 2020	<i>The number of confirmed cases of COVID-19 disease still continues to rise due to the direct exposure of some frontliners, particularly medical personnel, to the infected individuals who are being treated in the hospital. Proper protective clothing should be provided to them to avoid being contaminated and spread the disease to their co-workers. Meanwhile, CTG front groups will continue to exploit the situation and will utilize its relief operations to gain propaganda mileage among the affected residents. Moreso, CTG-affiliated student sectors will continue to be utilized as fronts by these groups purposely for fund generating schemes.</i>
May 13, 2020	<i>The LGUs have continue to conduct various activities to provide their constituents convenience, while the quarantine is still in effect to ensure that the populace will heed the calls during this critical period to avoid getting infected and add to the still growing number of COVID-19 positive cases in the region.</i>  <i>Local government units should continue its relief operations, assistance and implementation of enhanced community quarantine to prevent further spread of the disease. As the number of infected individuals increase, suspected carriers would likewise rise due to possible contact transmission. Hence, the public should cooperate with the government to stay in their houses and abide with the policies to avoid worsening the situation.</i>
May 14, 2020	<i>Local government units in Calabarzon and Mimaropa except for the province of Laguna are no laying down their plans for the shift of quarantine protocols from Enhanced Community Quarantine (ECQ) to General Community Quarantine (GCQ). Laguna did not appeal its case to IATF re its inclusion to the areas who will be put on a Modified Enhanced Community Quarantine (MECQ) despite the fact that the province did not have the highest case of Covid-19 in the region. Testing center and mega quarantine facilities are now already in the final touches of completion in the region, a testing center at De Lasalle Dasmarias, Cavite is also now operational.</i>  <i>With the shift from ECQ to GCQ, it is expected that more people will be out in the streets to go back to their respective workplace. Violations of GCQ protocols on</i>

	<i>the first week of its implementation is expected as people and government authorities will have to adjust to the new norm of GCQ. With the testing center in De Lasalle Dasmarias now operational, it is expected that the number of new Covid-19 cases will continue to rise in the region as testing will be done on a more frequent manner.</i>
