

NDRRMC ADVISORY

TO : CHAIRPERSONS, RDRRMCs/OCDROs V, VI, VII, VIII, IX, X, XI, XII, CARAGA, and BARMM

FROM : Executive Director, NDRRMC and Administrator, OCD

SUBJECT : Weather Advisory No. 01 for the Low Pressure Area (LPA) and Intertropical Convergence Zone (ITCZ)

DATE : 03 May 2020, 10:00 AM

Source: PAGASA-DOST issued on 06 February 2020, 11:00 AM

SITUATION OVERVIEW:

At 8:00 AM today, the Low Pressure Area (LPA) was estimated based on all available data at 280 km East Northeast of Davao City or 220 km East Southeast of Hinatuan, Surigao del Sur (7.9°N, 128.3°E) embedded along the Intertropical Convergence Zone (ITCZ). The combined effect of the LPA and the ITCZ will bring scattered light to moderate with occasional heavy rains over Mindanao, Visayas, and Bicol Region.

Residents in the aforementioned areas, especially those living in highly susceptible to flooding and rain-induced landslides are advised to take appropriate actions, coordinate with the Local Disaster Risk Reduction and Management Offices (LDRRMOs), and continue monitoring for updates including the thunderstorms or rainfall advisories, and heavy rainfall warnings issued by the PAGASA Regional Services Division.

You are hereby directed to monitor the situation and undertake precautionary measures in your area of responsibility (AOR). Likewise, the public and the DRRMCs are advised to take appropriate actions as necessary.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Let's untiringly aim for zero casualties.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

UNDERSECRETARY RICARDO B JALAD
Executive Director, NDRRMC and
Administrator, OCD
