

NDRRMC ADVISORY

TO : CHAIRPERSON, RDRRMC/OCDROs I, II, III, IV-A, IV-B, V, VI, VII, VIII, IX, X, XI, XII, NCR, CARAGA, CAR, NCR, and BARMM

FROM : Executive Director, NDRRMC and Administrator, OCD

SUBJECT : Severe Weather Bulletin No. 10 for Tropical Depression "CARINA"

DATE : 14 July 2020, 8:00 AM

Source: DOST-PAGASA

"CARINA" MOVES PAST THE BALINTANG CHANNEL AND IS NOW APPROACHING THE BASHI CHANNEL.

Track and Intensity Outlook:

- Tropical Depression "CARINA" is forecast to *turn northward while heading towards the Bashi Channel and the southern portion of Taiwan. It is forecast to weaken into a Low Pressure Area today or tomorrow morning.*

Heavy Rainfall Outlook:

- Today: *Scattered light to moderate rains with at times heavy rain showers over Batanes, Babuyan islands, and Ilocos Norte.*
- Flooding and rain-induced landslides may occur during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards. The public and disaster risk reduction and management offices are advised to take appropriate measures and monitor the Rainfall or Thunderstorm Advisories or Heavy Rainfall Warnings of PAGASA Regional Services Divisions.

Coastal Water Conditions:

- Moderate to rough seas (1.2-3.1 m) will be experienced over the northern and eastern seaboard of Luzon in the next 24 hours. Those with small seacrafts are advised not to venture out to sea.

Location of eye/center:	At 7:00 AM today, <i>the center of Tropical Depression "CARINA" was estimated based on all available data at 95 km West Northwest of Basco, Batanes (20.7 °N, 121.1°E)</i>
Strength:	Maximum sustained winds of 45 km/h near the center and gustiness of up to 55 km/h
Movement:	Moving Northwestward at 25 km/h
Forecast Positions:	<ul style="list-style-type: none"> • 24 Hour (Tomorrow morning): <i>325 km North Northwest of Basco, Batanes (23.3°N, 121.3°E)</i>

TROPICAL CYCLONE WIND SIGNAL				
TCWS	Luzon	Visayas	Mindanao	Impacts of the wind
1 (30-60 km/h winds prevailing or expected in 36 hours)	Batanes	-	-	<ul style="list-style-type: none"> • Very light or no damage to low risk structures • Light damage to medium to high risk structures • Some banana plants are tilted, a few downed and leaves are generally damaged • Twigs of small trees may be broken • Rice crops, however, may suffer significant damage when it is in its flowering stage.
	TCWS #1 over Babuyan Islands is now lifted.			
The public and the disaster risk reduction and management council concerned are advised to take appropriate actions and watch for the next Severe Weather Bulletin to be issued at 11:00 AM today .				

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Moreover, you are hereby directed to reiterate the guidelines on personal protection and hygiene such as respiratory etiquette and hand hygiene, social distancing, environmental, and food safety measures.

Let's untiringly aim for zero casualty.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

UNDERSECRETARY RICARDO B JALAD
 Executive Director, NDRRMC and
 Administrator, OCD
