NDRRMC UPDATE

Severe Weather Bulletin No. 03 for Tropical Depression "ENTENG"

Releasing Officer:

(SGD.)

UNDERSECRETARY RICARDO B JALAD

Executive Director, NDRRMC and Administrator, OCD

DATE : 08 August 2020, 11:00 PM

Source: DOST-PAGASA

"ENTENG" MAINTAINS ITS STRENGTH AS IT MOVES NORTHWARD OVER THE PHILIPPINE SEA

Track and intensity outlook:

- ENTENG will track generally northward throughout the forecast period and will remain far from the Philippine landmass. It is forecast to move near or over the southern islands of the Ryukyu archipelago and exit the PAR tomorrow afternoon.
- Further intensification remains likely throughout the forecast period. ENTENG is forecast to reach tropical storm category by tomorrow morning.

Hazards affecting land:

- No Tropical Cyclone Wind Signal is currently in effect. However, gusty conditions associated with the Southwest Monsoon may be experienced (especially in coastal and mountainous areas) in the next 24 hours over Pangasinan, Benguet, Nueva Vizcaya, Quirino, Central Luzon, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, and Western Visayas.
- Tomorrow, the Southwest Monsoon enhanced by ENTENG and the Low Pressure Area (LPA) west of Zambales will bring monsoon rains over llocos Region, Benguet, Abra, Zambales, Bataan, and MIMAROPA and occasional rains over Metro Manila, CALABARZON, Bicol Region, Visayas, and the rest of Cordillera Administrative Region and Central Luzon.
- Flooding and rain-induced landslide may occur during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards. The public and local disaster risk reduction and management offices concerned are advised to monitor the Rainfall/Thunderstorm Advisories and Heavy Rainfall Warnings from PAGASA Regional Services Divisions and take appropriate measures.

Hazards affecting coastal waters:

- Gale Warning is in effect over the seaboards of Pangasinan, Zambales, Bataan, western coast of Batangas, western coast of Occidental Mindoro including Lubang Island, and western coast of Palawan including Calamian Islands (2.8 to 4.0 m); Batanes, Cagayan including Babuyan Islands, and Isabela (2.5 to 3.4 m). Sea travel is risky over these areas due to rough to very rough seas.
- Those with small seacrafts are advised to take precautionary measures while venturing out over the seaboards of Visayas and the rest of Luzon due to moderate to rough seas (1.2 to 2.8 m).

Other weather disturbance being monitored:

 At 10:00 PM today, the Low Pressure Area (LPA) was estimated based on all available data at 255 km West of Iba, Zambales (15.1°N,117.9°E). This disturbance remains less likely to develop into a tropical depression in the next 24 hours.

Location of eye/center:	At 10:00 PM today, the center of Tropical Depression "ENTENG" was estimated based on all available data at 510 km East Northeast of Tuguegarao City , Cagayan or 495 km East of Calayan , Cagayan (19.4 °N, 126.2 °E).
Strength:	Maximum sustained winds of 55 km/h near the center and gustiness of up to 70 km/h.
Movement:	Moving Northward at 25 km/h.
Forecast Positions:	 24 Hour (Tomorrow evening): 880 km North Northeast of Extreme Northern Luzon (OUTSIDE PAR)(27.5°N, 125.9°E) 48 Hour (Monday evening): 2,000 km North Northeast of Extreme Northern Luzon (OUTSIDE PAR)(36.9°N, 130.3°E)
NO TROPICAL CYCLONE WIND SIGNAL	

The public and the disaster risk reduction and management council concerned are advised to take appropriate actions and watch for the next update to be incorporated in the 4:00 AM Public Weather Forecast and in the next Severe Weather Bulletin to be issued at 11:00 AM tomorrow.

ACTIONS TAKEN:

NDRRM Operations Center cascaded **Severe Weather Bulletin No. 03** for **Tropical Depression "ENTENG"** to all OCD Regional Offices concerned through SMS and email and uploaded in the NDRRMC website for further dissemination to their respective local DRRMCs from the provincial down to the municipal levels.
