NDRRMC UPDATE

**Weather Advisory No. 03
for the Low Pressure Area (LPA)**

Releasing Officer:

(SGD.)

UNDERSECRETARY RICARDO B JALAD
Executive Director, NDRRMC
and Administrator, OCD

DATE : 21 August 2020, 11:00 AM

Source: PAGASA-DOST

I. SITUATION OVERVIEW:

At **10:00 AM today**, the Low Pressure Area (LPA) was estimated based on all available data at **55 km East of Basco, Batanes (20.5 °N, 122.5 °E)**. This LPA may develop into a tropical depression in the next 24 hours. The Public and Disaster Risk Reduction and Management Offices (LDRRMOs) concerned are advised to continue monitoring for updates regarding the potential development of this weather disturbance.

Rainfall Forecast: Today, the LPA and Southwest Monsoon will bring light to moderate with at times heavy rains over Cagayan Valley, **Ilocos Region, Zambales, Bataan, Cavite, Batangas, Mindoro provinces, and northern Palawan**. Scattered rains and thunderstorms may prevail over the rest of Luzon.

Flooding and rain-induced landslide may occur during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards. The public and local disaster risk reduction and management offices concerned are advised to monitor the Rainfall/Thunderstorm Advisories and Heavy Rainfall Warnings from PAGASA Regional Services Divisions and take appropriate measures.

The next update on this weather disturbance will be incorporated in the Public Weather Forecast at **4:00 PM today and 4:00 AM tomorrow**.

The next weather advisory will be issued at 11:00 AM tomorrow.

II. ACTIONS TAKEN:

NDRRM Operations Center disseminated **Weather Advisory No. 03** to OCD Regional Offices **I, II, III, CALABARZON, MIMAROPA, V, VI VII, VIII, IX, X, XI, XII, CARAGA, BARMM, CAR and NCR** through SMS and facsimile and uploaded on the NDRRMC website for further dissemination to their respective local DRRMCs from the provincial down to the municipal levels.
