

NDRRMC ADVISORY

TO : CHAIRPERSON, RDRRMCs/OCDROs I, II, III, CALABARZON, MIMAROPA, VI, VIII and CAR

FROM : Executive Director, NDRRMC and Administrator, OCD

SUBJECT : Severe Weather Bulletin No. 10 for Typhoon "JULIAN" (I.N. "MAYSAK")

DATE : 31 August 2020, 11:00 AM

Source: DOST-PAGASA

TYPHOON "JULIAN" ACCELERATES TOWARDS THE NORTH NORTHWEST WHILE MAINTAINING ITS STRENGTH.

Track and intensity outlook:

- "JULIAN" is forecast to move north-northwestward or northwestward today and will remain far from the Philippine landmass. It is forecast to exit the Philippine Area of Responsibility (PAR) and pass between the Miyako and Okinawa Islands in the Ryukyu archipelago (southern Japan) tonight or tomorrow early morning.
- "JULIAN" may reach its peak intensity between tonight and tomorrow morning.

Hazards affecting land:

- The raising of Tropical Cyclone Wind Signal is unlikely throughout the forecast period.
- Today, the Southwest Monsoon may bring light to moderate with at times heavy rains over the northern portion of Palawan including Calamian and Cuyo Islands, Batanes, and Babuyan Islands.
- The public and disaster risk reduction and management offices concerned are advised to monitor the Thunderstorm/Rainfall Advisories and Heavy Rainfall Warnings issued by PAGASA Regional Services Divisions and take appropriate measures.

Hazards affecting coastal waters:

- Gale Warning remains in effect for the seaboard of Batanes and Babuyan Islands. Sea travel is risky due to rough to very rough seas over these areas (2.8 to 4.5 m).
- Moderate to rough seas (1.2 to 3.4 m) will be experienced over the seaboard of the rest of Luzon and Visayas due to the Southwest Monsoon and Typhoon "JULIAN". Those with small seacrafts are advised to take precautionary measures while venturing out to sea.

|--|--|
| Location of eye/center | At 10:00 AM today , the eye of Typhoon "JULIAN" was located based on all available data at 710 km East Northeast of Basco, Batanes (22.9 °N, 128.3 °E) |
| Strength | Maximum sustained winds of 150 km/h near the center and gustiness of up to 185 km/h . |
| Movement | Moving North Northwestward at 30 km/h |
| Forecast Positions | <ul style="list-style-type: none"> • 24 Hour (Tomorrow morning): 830 km North Northeast of Extreme Northern Luzon (OUTSIDE PAR) (26.8 °N, 126.2 °E) • 48 Hour (Wednesday morning): 1,145 km North Northeast of Extreme Northern Luzon (OUTSIDE PAR) (29.9 °N, 126.5 °E) |
| NO TROPICAL CYCLONE WIND SIGNAL | |

The public and the disaster risk reduction and management council concerned are advised to take appropriate actions and watch for the next update to be incorporated in the 4:00 PM Public Weather Forecast and in the next Severe Weather Bulletin to be issued at **11:00 PM today**.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.

Moreover, you are hereby directed to reiterate the guidelines on personal protection and hygiene such as respiratory etiquette and hand hygiene, social distancing, environmental, and food safety measures.

Let's untiringly aim for zero casualty.

Submit report on actions taken.

BY AUTHORITY OF THE CHAIRPERSON, NDRRMC:

UNDERSECRETARY RICARDO B JALAD
 Executive Director, NDRRMC and
 Administrator, OCD
