Situational Report for TC FLORITA (2022)

SitRep No. 2 for Tropical Storm FLORITA (2022)

August 23, 2022 08:00 am

21 August 2022

At 8:00 PM, the Low Pressure Area east of Aparri, Cagayan developed into Tropical Depression "FLORITA", with maximum sustained winds of 45 km/h near the center, gustiness of up to 55 km/h, and central pressure of 1004 hPa.

At 5:00 PM, Tropical Cyclone Warning Signal (TCWS) No. 1 was raised over the northern portion of Aurora (Dilasag), the eastern portion of Isabela (Dinapigue, Palanan, Divilacan, Maconacon, San Pablo, Cabagan, Tumauni, Ilagan City, San Mariano), and the eastern portion of Cagayan (Peñablanca, Baggao).

At 11:00 PM, TD "FLORITA" slightly accelerates West Southwestward over the Philippine Sea East of Cagayan, with maximum sustained winds of 55 km/h near the center and gustiness of up to 70 km/h. TCWS No. 1 was raised in the northern portion of Aurora, the northern and eastern portions of Isabela, and the eastern portion of Cagayan.

22 August 2022

At 10:00 AM, FLORITA intensifies into Tropical Storm while moving west southwestward over the Philippine Sea. It has a maximum sustained winds of 75 km/h near the center, gustiness of up to 90 km/h, and central pressure of 996 hPa.

TCWS No. 2 is raised over the eastern portion of Cagayan, the eastern portion of Isabela, the extreme northern portion of Aurora (Dilasag, Casiguran), and the northeastern portion of Quirino.

Meanwhile, TCWS No. 1 is still raised in the rest of Cagayan, the rest of Isabela, the rest of Quirino, Nueva Vizcaya, Apayao, Abra, Kalinga, Mountain Province, Ifugao, Benguet, La Union, Ilocos Norte, Ilocos Sur, the northern portion of Aurora, and the northern portion of Polillo Island.

At 8:00 PM, TS FLORITA continues to maintain its strength while moving slowly westward over the Philippine Sea, with maximum sustained winds of 75 km/h near the center, gustiness of up to 90 km/h, and a central pressure of 996 hPa.

At 11:00 PM, TS FLORITA slightly intensifies as it continues to move slowly westward. It is forecasted to maintain this heading until it makes landfall in the vicinity of the east coast of Isabela or Cagayan on the morning of 23 August 2022.

TCWS No. 2 is raised over Cagayan, the southern portion of Babuyan Isabela, Quirino, the eastern and central portions of Nueva Vizcaya, Apayao, Abra, Kalinga, Mountain Province, Ifugao, the northern portion of Benguet, Ilocos Norte, Ilocos Sur, and the northern and central portions of Aurora. Meanwhile, TCWS No. 1 is raised over the rest of Babuyan Islands, the rest of Nueva Vizcaya, the rest of Benguet, La Union, the eastern and central portions of Pangasinan, the eastern portion of Tarlac, Nueva Ecija, the rest of Aurora, the eastern portion of Pampanga, the eastern portion of Bulacan, the eastern portion of Rizal, the northern portion of Quezon including Polillo Islands, the northern portion of Laguna, and Camarines Norte,

23 August 2022

At 2:00 AM, FLORITA meanders over the sea East of Aurora while maintaining its strength, with maximum sustained winds of 85 km/h near the center and gustiness of up to 105 km/h. FLORITA may further intensify into a severe tropical storm prior to its landfall. After landfall, this tropical cyclone may slightly weaken due to the frictional effects of the rugged terrain of Northern Luzon. Once over the West Philippine Sea, FLORITA is forecast to re-intensify and may return to the Severe Tropical Storm category by Wednesday (24 August 2022) afternoon or evening.

TCWS No. 2 is still raised over some provinces in Regions I, II, III, and CAR. Meanwhile, TCWS No. 1 is still raised over some provinces in Regions I, II, III, CAR, CALABARZON, and V.

At 3:00 AM, FLORITA intensified into a Severe Tropical Storm (STS), with maximum sustained winds of 95 km/h near the center and gustiness of up to 115 km/h. It is moving North Northwestward at 10 km/h.

At 5:00 AM, the center of the eye of FLORITA was estimated based on all available data 120 km East Northeast of Casiguran, Aurora. STS FLORITA will continue to gradually accelerate northwestward and is forecast to make landfall in the vicinity of the east coast of either Cagayan or northern Isabela this morning or early afternoon.

At 8:00 AM, STS FLORITA accelerates north-northwestward and is now over the coastal waters of Palanan, Isabela with maximum sustained winds of 95 km/h near the center, gustiness of up to 115 km/h, and a central pressure of 992 hPa.

TCWS No. 3 is hoisted over the southern portion of Babuyan Islands, the northern and eastern portion of mainland Cagayan and the eastern portion of Isabela. TCWS No. 2 is still raised over some provinces in Regions I, II, III, and CAR. Meanwhile, TCWS No. 1 is raised over the provinces in Regions I, II, III, CAR, and CALABARZON.

RELATED INCIDENTS

The following incidents were reported in some areas of Region 1, Region 2, Region 3, Region 5, CAR.

National Disaster Risk Reduction and Management Council

Situational Report for TC FLORITA (2022) ACTIONS TAKEN

National

NDRRM Operations Center

- Facilitated the conduct of Weather Updating, PDRA Analyst Group, and PDRA Core Group Meetings on 21 August 2022.
- Raised the NDRRMOC Alert Level to RED effective 8:00 PM, 21 August 2022, and activated NDRRMOC EOC Management Team effective 22 August 2022
- Issued NDRRMOC Directive on Preparations for Low Pressure Area (LPA) East of Central Luzon dated 19 August 2022.
- Issued four (4) Emergency Alert and Warning Messages (EAWMs)

NDRRMOC Response Cluster

1. FOOD AND NON-FOOD ITEMS (FNFIS)

The DSWD Central Office (CO), Field Offices (FOs), and National Resource Operations Center (NROC) have stockpiles and standby funds amounting to ₱1,759,486,268.54 with breakdown as follows :

Standby Funds

A total of ₱848,919,378.86 standby funds in the CO and FOs. Of the said amount, ₱765,504,390.12 is the available Quick Response Fund (QRF) in the CO.

Stockpiles

A total of 480,036 family food packs (FFPs) amounting to ₱283,555,903.02, other food items amounting to ₱190,626,265.93 and non-food items (FNIs) amounting to ₱436,384,720.73 are available.

DSWD-DRMB

- The Disaster Response Management Bureau (DRMB) is closely coordinating with the concerned field offices for significant preparedness for disaster response updates.
- DRMB prepared and allocated 10,000 FFPs to DSWD Field Office II, with following delivery details: 1,600 FFPs to PSWDO Quirino, 3,400 FFPs to SWAD Isabela and 5,000 FFPs to DSWD Warehouse Ugac, Tuguegarao City
- The Response Cluster is activated to monitor and facilitate emergency and humanitarian assistance response to the possible effects of Tropical Storm "FLORITA".

DSWD-NRLMB

- DSWD National Resource and Logistics Management Bureau (NRLMB) is continuously producing goods for possible augmentation.
- The NRLMB dispatched six truck, loaded with 10,000 FFPs bound to Region II
- DSWD-NRLMB provides logistical augmentation to FOs on delivering FFPs to LGUs.

2. EDUCATION

Central Office

- Attended Virtual Emergency Operation Centers for TS "Florita"
- Conducted an emergency coordination meeting with the affected regions and divisions to discuss updates, status, reports and ways forward;

- Convened the AoR leads to reiterate response functions during disaster;
- Prepared a schedule of DRRMS staff assigned to prepare the Situation Reports and Education Cluster Updates;
