

Effects of Oil Spill in MIMAROPA and Region VI (Western Visayas)

SitRep No. 5 for the Effects of Oil Spill in MIMAROPA and Region VI

March 08, 2023 08:00 am

On 28 February 2023, 4:16 AM, MT Princess Empress was reported half submerged at vicinity waters off Naujan, Oriental Mindoro with 20 men onboard and loaded with 800,000 liters of Industrial Fuel Oil. At 4:20 AM, the stranded crews were rescued by MV EFES, a foreign vessel, and have been reported to be in good physical condition.

On 01 March 2023, MT Princess Empress was declared totally submerged by the PCG Team upon negative sightings of the said vessel during a seaborne and aerial search.

The Search and Rescue Team of Coast Guard Sub Station Calapan together with Special Operations Unit (SOU) Oriental Mindoro and Marine Environmental Protection Unit (MEPU) proceeded to the area of the incident to locate the submerged vessel. However, the operation was unsuccessful due to inclement weather conditions.

Further, Coast Guard Station Oriental Mindoro coordinated with the owner of the submerged vessel for the actions to be undertaken regarding the incident. An aerial inspection was also conducted around the vicinity of the incident. Upon the conduct of the said inspection, a visible oil sheen in the vicinity waters of Oriental Mindoro was sighted in the area.

RELATED INCIDENTS

The following incidents were reported in some areas of MIMAROPA.

REGION	Oil/Chemical Leak
Total	62
MIMAROPA	62

AFFECTED POPULATION

A total of 22,908 families or 65,516 persons were affected. Of which, 10 families or 40 persons were served inside 1 ECs and 0 families or 0 persons were served outside ECs:
