Year-End Celebration and Monitoring (2024)

SitRep No. 5 for the Year-End Celebration and Monitoring (2024)

December 26, 2024 08:00 am

The Holiday Season, encompassing both Christmas and New Year celebrations, is a period of heightened activity across the Philippines. Traditionally, many families travel to their provinces to reunite with loved ones, underscoring the cultural significance of this festive period. Christmas is observed through practices such as Simbang Gabi, Noche Buena, and gift-giving, reflecting the deeply rooted spiritual and familial values of Filipino society.

New Year's Eve celebrations are marked by widespread use of fireworks and other noise-making activities, which are integral to Filipino customs symbolizing the drive to ward off misfortune and welcome prosperity. However, these practices also pose safety risks, with incidents of fireworks-related injuries expected during this time.

Per PAGASA Special Weather Outlook for Christmas 2024, issued on 23 December 2024, the weather systems that are expected to affect most parts of the country during the Christmas Holidays are the Northeast Monsoon or Amihan, the Shear Line, and the Easterlies.

On 24 December 2024, cloudy skies with scattered rains and thunderstorms will be experienced over Metro Manila, CALABARZON, Bicol Region, MIMAROPA, Eastern Visayas, Aurora, Aklan, and Capiz due to Shear Line. The Northeast Monsoon will bring cloudy skies with light rains over Central Luzon, Cagayan Valley, and Cordillera Administrative Region (CAR) while partly cloudy skies with isolated light rains will prevail over Ilocos Region. Mindanao and the rest of Visayas will have partly cloudy to cloudy skies with isolated rainshowers or thunderstorms.

On 25 December, the Shear line will continue to bring cloudy skies and scattered rains and thunderstorms over Metro Manila, Central Luzon, CALABARZON, Bicol Region, Northern Samar, Eastern Samar, Samar, Occidental Mindoro, Marinduque, and Romblon. Cagayan Valley and Cordillera Administrative Region (CAR) will be mostly cloudy with scattered light rains while partly cloudy to cloudy skies with isolated light rains will prevail over Ilocos Region. Caraga and Davao Region will have mostly cloudy skies with scattered rains and thunderstorms due to Easterlies. The rest of the archipelago will experience partly cloudy to cloudy skies with localized rainshowers or thunderstorms.

Strong to Gale-force winds associated with the Northeast Monsoon will prevail over Northern Luzon and the eastern section of Central and Southern Luzon which may result to rough to very rough sea conditions. Moderate to strong northeasterlies to easterlies may affect the western section of Luzon and the eastern section of the country while light to moderate winds are expected over the rest of the archipelago.

CASUALTIES (2)

A total of 0 dead, 22 injured, and 0 missing persons were reported:

REGION	VALIDATED			FOR VALIDATION			TOTAL REPORTED		
	dead	injured	missing	dead	injured	missing	dead	injured	missing

 - Coordinated the Philippine National Police for the deployment of the personnel in the strategic locations in the area of responsibility.
 - Coordinated with the Traffic Management Unit Personnel for the traffic management.
- Activated emergency operation system and response team 24/7.

CALACA CDRRMC

- Public Awareness Campaigns: To ensure community preparedness, the city will launch public awareness campaigns through various channels, including social media, posters, and local radio broadcasts. These efforts will focus on disseminating safety tips and guidelines, particularly on fire prevention, disaster preparedness, and basic first aid. Additionally, seminars will be conducted in barangays to educate residents about practical safety measures during the Yuletide Season.
- Inspection and Safety Check: Regular inspections will be conducted to ensure the safety of electrical installations, especially in public markets, event venues, and residential areas. Structural assessments of high-traffic areas will also be prioritized to prevent accidents during crowded events. These proactive measures aim to minimize risks and promote a secure holiday environment.
- Incident Management Team Activation: An Incident Management Team (IMT) will be activated to oversee and coordinate all preparedness and emergency response operations during the Yuletide Season. The IMT will ensure streamlined communication, rapid decision-making, and efficient allocation of resources, enhancing the city's capacity to handle any incidents effectively.
- Emergency Response Readiness: The city will strengthen emergency response readiness by deploying quick-response teams in strategic locations, such as markets, churches, and event sites. Emergency hotlines and the command center will operate 24/7 to address any incidents promptly. Simulation exercises and drills will also be conducted to prepare responders for various emergency scenarios.
- Traffic and Crowd Management: To manage the anticipated increase in traffic and crowd density, the city will coordinate with traffic enforcers to address congestion in event areas and major thoroughfares. Clear entry and exit points will be designated in crowded venues to ensure smooth movement and reduce the risk of stampedes or accidents.
- Fire Prevention Measures: Fire safety will be a priority during the Yuletide Season. Regular inspections of fire hydrants and safety equipment will be conducted to ensure functionality. Fire extinguishers will be strategically placed in key locations, and fire safety lectures will be delivered in collaboration with the Bureau of Fire Protection to educate the public on preventive measures.
- Weather Monitoring: Conducting public information to the Calacazens to stay updated on weather conditions; especially in areas that may experience vog, thunderstorms, and heavy rainfall. This allows Calacazens and visitors to take necessary precautions and avoid risky activities during adverse weather conditions.
- Collaboration with Stakeholders: Collaborating with various stakeholders including concerned government agencies, non-governmental organizations, barangay leaders and functionaries, and private sector partners to

coordinate preparedness and response efforts effectively. This ensures a unified approach to managing risks and addressing challenges during the Yuletide season.

-Event Coordination and Security: The city will assign security personnel to major public events to maintain order and safety. Clear protocols for crowd control and emergency evacuation will be established to ensure smooth operations and quick responses during unforeseen incidents.

-Travel Preparedness: Warn Calacazens to prepare their car, check-up before traveling like the brakes, tires and battery. And have an advisory to monitor the traffic management by planning the routes ahead of time. This is to avoid any conflicts and incidents while traveling.

Theme Integration: Finally, the city will incorporate the theme "Pasko ng Pasasalamat" in all preparedness activities, emphasizing gratitude and community spirit. This theme will serve as a unifying message, reminding residents to celebrate safely while remaining vigilant during the season.

LOBO MDRRMC

-Disaster Operations Center will be activated starting December 19, 2024 - January 6, 2025 to closely monitor situation updates and possible untoward incidents/consequences within the area of responsibility during the celebration of Yuletide Season.

-Maintain the "Standby Alert" status of Disaster Operation Center and Emergency Response Team including the barangay functionaries.

-Conduct regular coordination meetings with MDRRM Council Members including BDRRMC, PNP, BFP, MHO and other partner agencies.

-Conduct a daily radio checking to 26 barangays of Municipality of Lobo for updates and announcements

-Continuous monitoring and disseminating information regarding weather updates and current situation.

-Ensure that the Emergency Hotline numbers and other contact details are posted on public places, Barangay Halls and Official MDRRMO & LOBO PUBLIC INFORMATION OFFICE pages.

-Coordination with the Barangay Captains, Secretaries, and Focal Persons to closely monitor any untoward incident through social media platforms (Messenger/Facebook).

-Continuous situational reporting to MDRRM Council, PDRRMO and RDRRMC.

PADRE GARCIA MDRRMC

-Conduct thorough assessment to identify accident prone area.

-Monitor weather forecasts and updates within the area of responsibility.

-Proper coordination with PNP, BFP for safety and security within the area of responsibility.

-Intensive information, education campaign regarding fire crackers related incident thru flyers, banners and social media.

-Conduct coordination with TMD.

-Standby emergency Response Team and resources.

-Monitoring of situation updates within the area of responsibility.

SAN JOSE MDRRMC

-Conducted Pre-Disaster Risk Assessment

-Public Awareness Campaign: Conduct distribution of IBC materials on the increased tourism activity for the Yuletide Season; IEC materials for Oplan Iwas Papatok; public address (bandillo); and use of quadmedia for info dissemination.

-Emergency Response Planning: Review and update response plan (if necessary) to ensure readiness in addressing potential incidents on tourism-related and yuletide activities

-Enhanced Monitoring and Surveillance: Increase the monitoring and surveillance activity in key areas to identify and address potential health concerns proactively.

-Tourism Preparedness: Conduct of Tourism Readiness. Evaluation and strengthen inspection of tourism enterprises to ensure the standards required for quality and excellence of tourism activities.

-Law and Order Preparedness: Law enforcement is essential during the Yuletide season to ensure public safety. Increased patrols and officer deployment in high-traffic areas help deter crime, manage crowds, and respond quickly to emergencies. Collaboration with local communities through neighborhood watch programs and crime prevention campaigns further enhances security. By maintaining a visible presence and educating the public, law enforcement plays a key role in promoting a safer holiday environment.

-Search and Rescue, and Fire Suppression Preparedness: Ensure readiness of rescue teams, prepositioning of necessary supplies, equipment, and vehicles.

Coordination with Stakeholders: Collaboration with various stakeholders including government agencies, private sector partners especially the tourism sector, barangay officials and functionaries in the coordination of preparedness and response efforts.
